Experience

Freelance Software Engineer

Mar 2026 - Present

Self Employed

Remote

- Built an appointment booking website for a field service company, enabling online scheduling, service inventory, and automated booking confirmations.
- Developed an internal mobile app to manage appointments, assign crews, track service status, and manage business finance.

Hinge Health

Oct 2025 - Mar 2026

Software Engineer II

Bengaluru

- Built a Next.js/TypeScript interface for an internal **AI legal assistant**, delivering streaming search, contextual knowledge buckets, and citation-driven document navigation to help legal teams explore **100+** page policy documents.
- Revamped the onboarding health assessment workflow with interactive conditional forms, autosave, and progress persistence.
- Built a shared analytics visualization framework for coach dashboards, standardizing charts, filtering, loading states across **15+** patient outcome metrics.

Astria Digital

Feb 2025 - May 2025

Software Engineer

Bengaluru

- Owned full-stack delivery of a **mobile/web agent platform**, enabling **20 concurrent agents** to handle inbound customer calls with real-time routing and post-call analysis.
- Architected **30+ reusable React Native components** forming a shared design system across mobile and web.
- Resolved race-condition logouts and duplicate refresh calls during session expiry by rebuilding the auth flow to handle concurrent refresh requests safely.

Lifesight

Jul 2022 - May 2024

Associate Software Engineer

Bengaluru

- Implemented **Web Push notifications**, **Whatsapp Cloud messaging** with merge tags and a minimum-click **Sign in with Shopify**.
- Built an E2E centralized integrations UI module to unify **10+** marketing platforms (e.g., Google Ads, Facebook, Shopify).
- Owned the frontend development of **Attribution**, **Marketing Mix Modeling** and **Incrementality** modules, building analytics dashboards with **fusion charts**, multi-step experiment configuration forms and dynamic filtering.

Entrepreneurial Experience

Udooh | Founding Lead Engineer | Jun 2024 - Jan 2025

- **Technical responsibilities:** Led E2E MVP development in 4 months, owned CI/CD, monitoring, and scaling strategies.
- **Product/Validation:** Onboarded 10 pilot screens across 3 locations and ran campaigns with 5 SMB advertisers.
- **Management:** Led an engineering team of 3 members, drove a sales team, drafted investor pitchdeck, tech specs and timelines.

Projects

ImageToCode | IBM Bob Dev Day Hackathon 2026

AI-powered CLI that converts UI screenshots into HTML/CSS using a coder-evaluator loop with Playwright-based rendering

Infinite-scroll react table

Table UI with infinite scroll and virtualization for large datasets, built on top of React, TypeScript and TanStack.

Udooh web application

A hyperlocal marketing platform, enabling dynamic, location-specific ads on digital screens, tailored for brands, enterprise & SMEs.
