Profile Summary

Fullstack Engineer with experience in architecting and scaling systems for fast-paced startups. With 3+ years of hands-on experience in building products from 0 to 1, I translate nascent product visions into tangible outcomes. I am a dedicated contributor who partners closely with product and design, owns the end-to-end lifecycle of features, and prioritizes business goals along with user needs.

Experience

Hinge Health

Oct 2025 - Mar 2026

Software Engineer II

Bengaluru

- Engineered an RAG system, using **AWS Bedrock** Agents and APIs to leverage historical conversations, for compliance queries, reducing average response time by **80%** (from **3** minutes to **30** seconds) and cutting reliance on external coaches for repeated queries (**>50%**).
- Contributed to an RAG-based internal assistant (**HingeGPT**) ft. multi-source ingestion connectors for GitHub, Jira and Confluence, semantic vector search for context retrieval, improving developer productivity by **30%**.
- Migrated direct user search from PostgreSQL to **OpenSearch**, eliminating **99%** CPU spikes and slashing p95 latency from **>1s** to sub-second performance.
- Automated unit test creation for NestJS/Go via **LLMs** saving **160 minutes** per class.
- Led the extraction of tightly coupled modules from a **Ruby on Rails** monolith into **5** domain-driven microservices on **NestJS**.

Astria Digital

Feb 2025 - May 2025

Software Engineer

Bengaluru

- Built an event-driven agent communication platform, enabling **50** concurrent agents to handle inbound customer calls with real-time routing and post-call analysis, reducing average handle time by **~30%**.
- Optimized **S3** access for **EKS** workloads by configuring VPC Gateway Endpoints and introducing a **Redis** caching layer for hot objects, eliminating public egress costs and reducing asset fetch latency by **~35%**.
- Improved dashboard UI performance by caching frequently fetched live data, reducing interaction latency by **~28%** and achieving **LCP** under **2.5s**.

Lifesight

Jul 2022 - May 2024

Associate Frontend Engineer

Bengaluru

- Engineered the customer engagement module using Unlayer to enable drag-and-drop email templates and interactive form creation, leading to **1000+** upvotes and **700+** customer **signups** on **ProductHunt**.
- Built a centralized integrations module UI to unify **10+ marketing platforms** (e.g., Google Ads, Facebook, Shopify).
- Owned major marketing measurement UI modules (Attribution, MMM and Incrementality with Causal Inference).
