Experience

Hinge Health

Oct 2025 - Mar 2026

Software Engineer II

Bengaluru

- Built a shared analytics visualization framework for coach dashboards, standardizing charts, filtering, loading states, and data models across **15+** patient outcome metrics.
- Built a Next.js/TypeScript interface for an internal AI legal assistant, delivering streaming search, contextual knowledge buckets, and citation-driven document navigation to help legal teams explore AI-indexed **100+** page policy documents.
- Owned backend changes across User Service and eligibility integrations for a versioned member intake contract, translating new onboarding payloads into profile and eligibility domain models, maintaining downstream care-program consumers.
- Revamped the onboarding health assessment workflow with interactive conditional forms, autosave, and progress persistence.

Astria Digital

Feb 2025 - May 2025

Software Engineer

Bengaluru

- Owned full-stack delivery of a mobile/web agent platform, enabling **50** concurrent agents to handle inbound customer calls with real-time routing and post-call analysis, reducing average handle time by **~30%**.
- Built **30+** reusable React Native components, API-driven screens, and real-time state updates using TypeScript, Redux, WebSockets, and REST APIs to support low-latency agent workflows across mobile and web.
- Applied secure practices including encrypted local storage, token-based auth, and sanitized API inputs in mobile UI flows.

Lifesight

Jul 2022 - May 2024

Associate Software Engineer

Bengaluru

- Engineered the customer engagement module using Unlayer to enable drag-and-drop email templates and interactive form creation, leading to **1000+** upvotes and **700+** customer signups on **ProductHunt**.
- Built an E2E centralized integrations module to unify **10+** marketing platforms (e.g., Google Ads, Facebook, Shopify).
- Owned the frontend development of Attribution, Marketing Mix Modeling (MMM) and Incrementality modules, building analytics dashboards with Chart.js, multi-step experiment configuration forms, dynamic filtering and configuration workflows.

Entrepreneurial Experience

Udooh | Founding Lead Engineer | Jun 2024 - Jan 2025

- **Technical responsibilities:** Led E2E MVP development in 4 months, owned CI/CD, monitoring, and scaling strategies.
- **Product/Validation:** Onboarded 10 pilot screens across 3 locations and ran campaigns with 5 SMB advertisers.
- **Business & operational work:** Managed tech cost estimation, domain acquisition, vendor contracts & hardware partnerships.
- **Management:** Led an engineering team of 3 members, drove a sales team, drafted investor pitchdeck, tech specs and timelines.

Projects

ImageToCode | IBM Bob Dev Day Hackathon 2026

AI-powered CLI that converts UI screenshots into HTML/CSS using a coder-evaluator loop with Playwright-based rendering

Infinite-scroll react table

Table UI with infinite scroll and virtualization for large datasets, built on top of React, TypeScript and TanStack.

Udooh web application

A hyperlocal marketing platform, enabling dynamic, location-specific ads on digital screens, tailored for brands, enterprise & SMEs.

Technical Skills

Programming & Scripting: JavaScript/TypeScript, Python, Ruby, C++

Frontend: React, React Native, React Query, Next.js, Expo, Webpack, Jest, Redux, SCSS, Tailwind, GSAP, Tanstack, Unlayer

Backend: FastAPI, Node.js, NestJS, OAuth, RBAC, WebSockets, Redis, Kafka, Nginx

Data Platform & Engineering: PostgreSQL, MongoDB, Opensearch, AWS, GCP

DevOps & Tools: Linux, Docker, Kubernetes, Jenkins, Railway, Expo, Git, Bitbucket, Twilio, Datadog

Education

PES University, Bengaluru

2018 - 2022

B.Tech in Computer Science and Engineering

Delhi Public School Ruby Park, Kolkata

2018

CBSE (XII)
