Profile Summary

Experienced full stack software engineer with a strong track record of success in high-profile projects. Proficient in JavaScript, Typescript, React, Nextjs, Node, Linux, GCP and AWS with a demonstrated ability to deliver innovative solutions in fast-paced environments. Effective collaborator within cross-functional teams, operating at maximum capacity under strict deadlines as an individual contributor.

Experience

Astria Digital

Feb 2025 - Jun 2025

Software Engineer

Bengaluru

- Developed a scalable communication platform using **Twilio Studio Flow** and **Flex**, empowering **15+ agents** to manage customer conversations concurrently, leading to a **20% reduction** in average wait time.
- Redesigned a modular, **mobile-first** service booking flow, with **firebase authentication** system - received a **4.8/5** client's customer satisfaction rating.
- Integrated Twilio voicemail flow with **AWS Lambda** to trigger **smart routing** based on agent availability, reducing missed inquiries by **35%** and achieving **100% automated task assignment**.

UdooH

Jun 2024 - Aug 2024

Founding Engineer

Bengaluru

- Built and deployed the website and platform on **Railway**, achieving **>99% uptime**, enabling seamless merchant experience.
- Led the **UI development** and **MVP definition** from scratch to acquire the first set of paying customers.
- Developed **Channels UI** to render scheduled ad content into merchant screens, **increasing sales** and **partner onboardings** by **50%**.
- Deployed a **mobile-first** admin module for the business development team, reducing **merchant onboarding time** by **60%**.

Lifesight

Jun 2024 - Aug 2024

Associate Frontend Engineer

Bengaluru

- Engineered the customer engagement module using **Unlayer** to enable **drag-and-drop email templates** and **interactive form** creation, leading to **1000+ upvotes** and **700+ customer signups** on **ProductHunt**.
- Owned major marketing measurement features including **Attribution**, **MMM**, **Scenario Planning**, and **Incrementality** with **Causal Inference** to optimize campaign strategies and forecasting accuracy.
- Enabled **WhatsApp** and **Email campaign** channels for the **marketing automation suite**, improving multi-channel outreach.
- Built a key frontend feature for the growth and ops teams, integrating platform analytics to streamline insights and reduce error inspection time, improving support efficiency.

Technical Skills

Languages: JavaScript, TypeScript, C++

Frontend: React, Next.js, Vite, Rollup, Zustand, Framer, Webpack, Unlayer, Firebase, Responsive Design, Figma

Backend & Services: Node.js, Express, REST APIs, WebSockets, Redis, Microservices, RBAC (Role-Based Access Control)
